## SUMMARY

---

Highly skilled Software Developer with 5 years of experience in designing and implementing scalable web applications. Proficient in front-end technologies including CSS, HTML, and Javascript, with advanced expertise in React and Typescript. Demonstrated ability to manage code repositories using Git and Github, ensuring efficient version control and collaboration. Experienced in leveraging AWS services such as AWS Lambda, DynamoDB, and RDS (MySQL) for robust backend solutions. Adept at utilizing Cloudformation and Infrastructure as Code (IaaS) for seamless cloud deployments. Committed to delivering high-quality, reliable, and efficient software solutions in fast-paced environments.

---

## EXPERIENCE

---

### Software Developer - Tech Lead

Appsnube

May 2021 - February 2025 (3 years 10 months)

I was responsible for leading a team of developers in designing, developing, and implementing software solutions:

- Successfully implemented CI/CD workflows, reducing deployment time drastically, resulting both in a better DX and Costs Optimization.
- Designed architecture solutions for over eight ecommerce plug-ins, enhancing system efficiency, implementing AWS services integrations such as (ApiGateway, Lambda, SQS, SNS, DynamoDB, RDS, S3, EC2, EBS, Cloudfront, Event Bridge and more).
- Trained and onboarded more than ten new developers, improving team productivity.
- Facilitated client meetings, contributing to a better customer satisfaction.
- Developed support case dashboards, improving issue tracking and resolution times.
- Collaborated with sales and technical teams, boosting cross-departmental communication.

### Software Developer

everis

September 2020 - May 2021 (9 months)

- As a Junior Software Developer at a big Spanish telcom company, I was responsible for developing and maintaining web applications using React and Typescript.
- I collaborated with cross-functional teams to design and implement scalable microservices architecture, ensuring seamless integration with existing systems.
- My role involved writing clean, efficient, and well-documented code, while adhering to best practices in software development.
- I actively participated in Scrum meetings, contributing to sprint planning and retrospective sessions to enhance team productivity.
- Additionally, I conducted unit testing to ensure code quality and reliability, and utilized NodeJS for server-side development tasks.
- My contributions were pivotal in enhancing application's logs and monitoring, helping to implement ELK (Elastic Search, Logstash, Kibana) stack for this purpose..

### React Native Developer

4HappyDevs

January 2020 - September 2020 (9 months), La Plata, Buenos Aires, Argentina

- React Native - Expo mobile apps development..

### Founder

Apolo Efectos

January 2015 - January 2020 (5 years 1 month), La Plata, Buenos Aires, Argentina

- Worked designing and building Guitar Effect Pedals, with both analog and digital circuitry, programming Atmel microcontrollers and DSP programs for specific DSP chips..
- 

## EDUCATION

---

### Bachelor of Technology

UNLP (Universidad Nacional de La Plata) • La Plata, Buenos Aires, Argentina • 2023

Gained a solid foundation in algorithms, data structures, and object-oriented programming (OOP). This coursework provided essential problem-solving techniques and structured programming principles, which have been fundamental in software development and system design throughout my career.

(not finished)

## **Aeronautical Engineering**

UNLP (Universidad Nacional de La Plata) · La Plata, Buenos Aires, Argentina · 2014

Completed extensive coursework in mathematics and physics, building a strong foundation in scientific and engineering thinking. These studies provided essential problem-solving skills and analytical reasoning, which have been instrumental in applying structured, logical approaches to complex challenges throughout my professional career.

(not finished)

## **Lengua y literatura inglesa**

Changes School of English · Carlos Casares, Buenos Aires, Argentina · 2010

Completed a comprehensive English language program focused on grammar, conversation, reading, and writing skills. The course emphasized fluency and real-world communication, including immersion activities and interaction with native speakers.

## **TOEIC Test of English for International Communication, Lengua y literatura inglesa**

Idio+delfabro · 2009 - 2010

---

## **CERTIFICATIONS**

---

### **Curso Práctico de AWS Cloud**

Platzi · 2024

### **Curso de Infraestructura Como Código en AWS**

Platzi · 2024

---

## **SKILLS**

---

Languages:

English (Intermediate)

Hard Skills: SQL, Amazon Web Services, NodeJS, Typescript, React, Git, Bash scripting, Php, CICD workflows

Soft Skills: Leadership, Communication (technical and non-technical), Decision Making, Analytical Thinking, Adaptability, Proactive and engaged team player
